Data Analysis

category	count
Beauty	185
Sports	177
Clothing	174
Books	165
Electronics	160

I want to see how many orders belong to each category, so that's why I plotted this bar chart.

[Manage app](#)

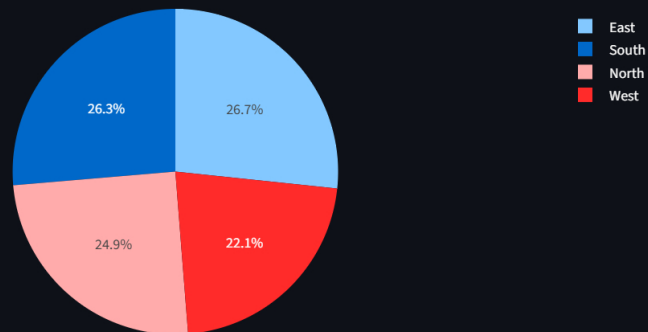

Category counts

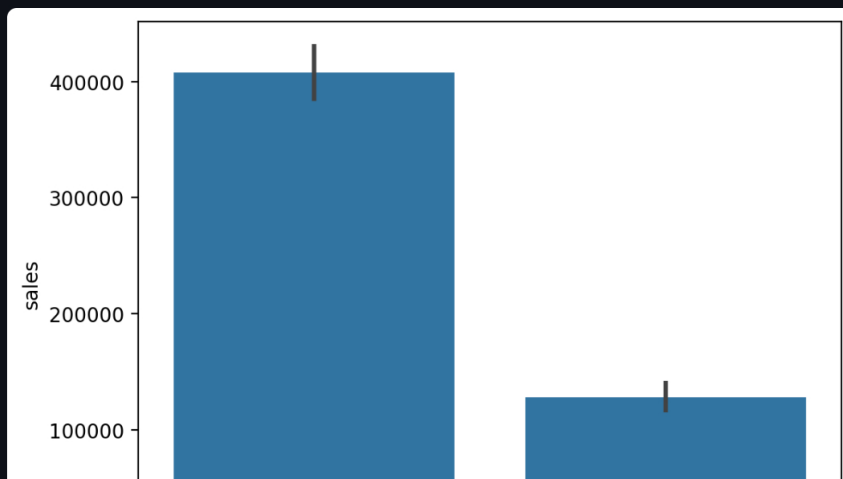

I want to see the share of sales from each region, so I used a pie chart to visualize it.

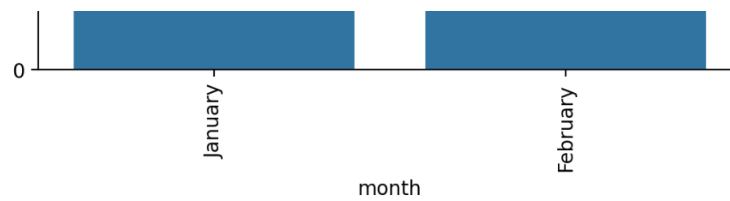

[Manage app](#)

category By price

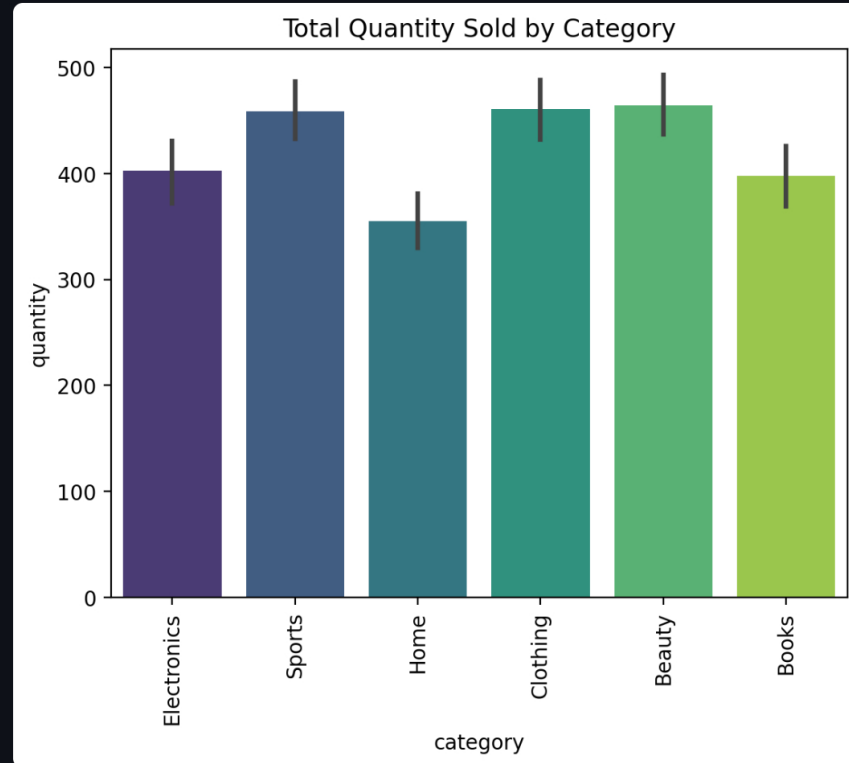

[Manage app](#)

I want to analyze total sales for each month, so that's why I plotted this bar chart.

[Manage app](#)

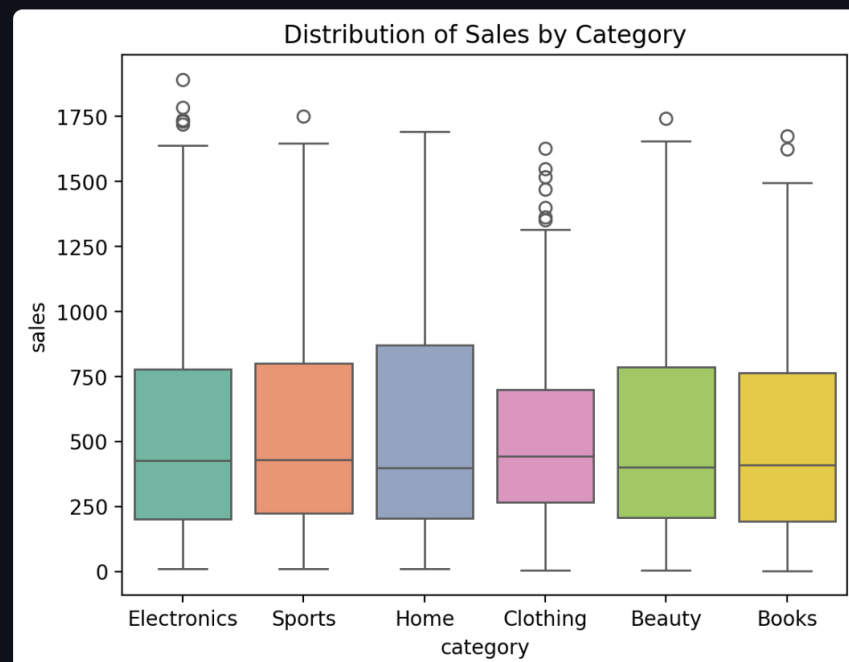

I want to Total Quantity Sold by Category, so that's why I plotted this bar plot

< Manage app

< Manage app

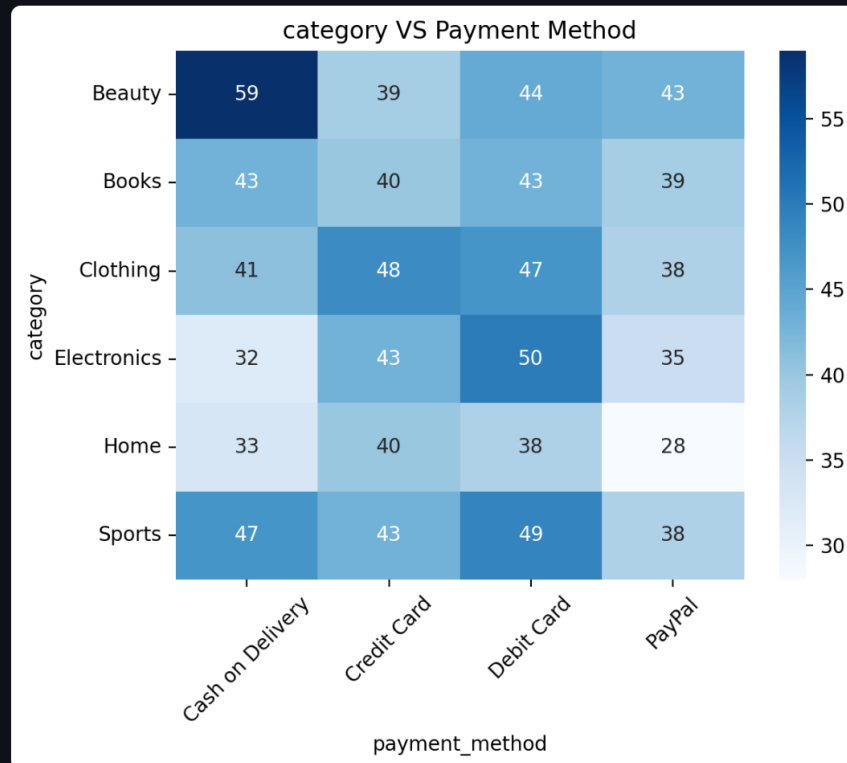

I want to understand the distribution of sales across different categories, so I plotted a box plot to visualize the spread, median, and outliers for each category

< Manage app

I want to analyze the relationship between product

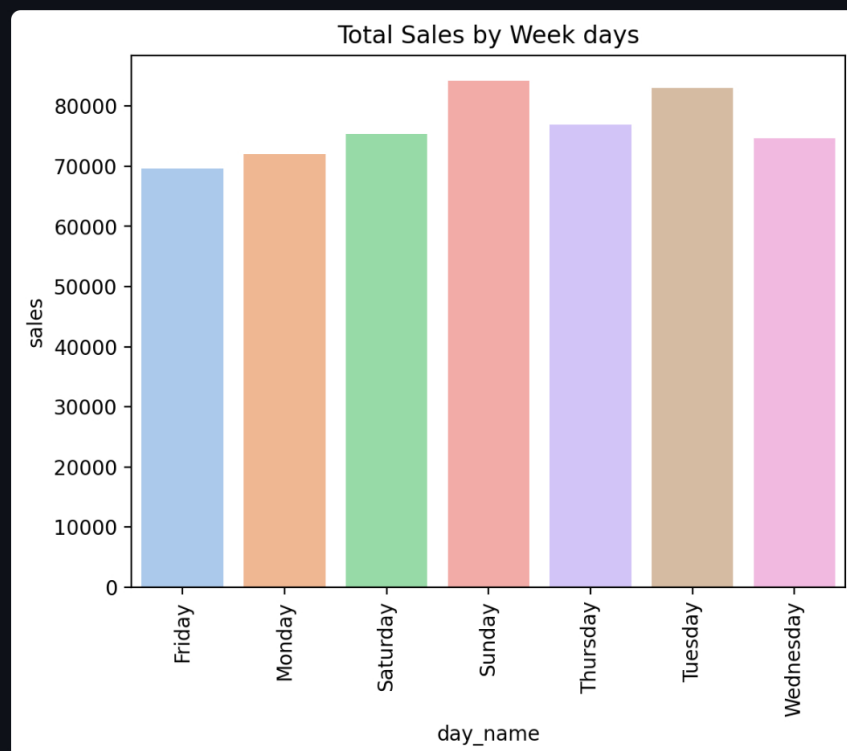

categories and payment methods, so I plotted a heatmap showing the number of transactions for each category-payment method combination.

< Manage app

< Manage app

I want to see how total sales vary across the days of the week, so I plotted a bar chart showing the sum of sales for each weekday.

< Manage app

I want to compare total sales across different categories, so that's why I plotted this horizontal bar chart

Total Sales by category across Regions
